---

Hi [REDACTED],

Thank you very much, this really does clear up some of the smoke regarding the FY21. I greatly appreciate the status update.

Thanks,

[REDACTED],

Currently all FY 21 adjustments are on hold pending a schedule and guidance from MCICOM. Considering that the Conversion Projects are owned by MCICOM; any ability to adjust a document that falls within that Project would only make any funds you free up or adjust reside at the MCICOM level.

We have provided several COA's to MCICOM, but they have yet to come up with proper guidance to assist the Level 4's. Sorry this just kicks the can further down the road, but our hands are tied at this moment.

**Subject:** FY21 Status?

[REDACTED],

I'm getting questions / concerns regarding FY21. Our HR had several personnel that were in courses that were to be completed after the FY ended, but, their ADP would be paid by FY21 dollars. Maybe it's just me, but, I'm

not seeing any of our FY21, except the "C" Project numbers. Where does FY21 stand, and can we process these outstanding FY21 docs? Or how can we process them?

Thanks,

[REDACTED]
